COLLEGE: AGURCHAND MANMULL JAIN COLLEGE
/MADRAS UNIVERSITY

PROJECT TITLE

Title: Student Dashboard Project

**Subtitle: HTML, CSS – Home, Certificate, Resume,
Contact**

AGENDA

1. Project Overview
2. Tools and Technologies
3. End users
4. Features and Functionality
5. Results and Screenshots
6. Conclusion
7. Github Link

PROJECT OVERVIEW

◆ Project Aim

- The goal of this project is to create a simple Student Dashboard website using HTML and CSS.
- It allows a student to:
- Showcase their certificates
Share their resume
Provide contact details
Navigate easily between sections

WHO ARE THE END USERS?

1. **Students** – showcase skills, certificates, resume
 2. **Recruiters/Employers** – view student profile & contact details
 3. **Teachers/Mentors** – check progress & achievements.
 4. **Peers/Classmates** – share and get inspired.
 5. **Institutions** – highlight student achievements.
- 
- 

TOOLS AND TECHNIQUES

◆ Tools

- HTML5 – structure of web pages
- CSS3 – styling and layout
- Text Editor (VS Code / Notepad++) – coding environment
- Web Browser (Chrome, Edge, Firefox) – testing and running

◆ Techniques

- Page Linking – connecting multiple HTML pages (Home, Certificate, Resume, Contact)
- Navigation Bar – easy movement across sections
- External CSS – single stylesheet for consistent design
- Active Link Highlighting – shows current page
- Responsive Layout Basics – clean and user-friendly interface

FEATURES AND FUNCTIONALITY

◆ Features

- Multi-page Portfolio (Home, Certificates, Resume, Contact)
- Navigation Bar with active link highlight
- Clean Layout using external CSS
- Responsive & User-friendly design

◆ Functionality

- Page Linking: Move between sections easily
- Certificate Display: Show completed courses/skills
- Resume Section: Share profile, education & skills
- Contact Page: Provide email, phone, location
- Consistent Styling: One CSS file for all pages

RESULTS AND SCREENSHOTS

[Home](#) [Certificate](#) [Resume](#) [Contact](#)

Welcome to the Student Dashboard!

Use the navigation bar to explore certificates, your resume, and contact page.

CONCLUSION

*The Student Dashboard project, built with HTML & CSS, provides a simple portfolio to showcase certificates, resume, and contact details.
It is user-friendly, professional, and expandable for future use.*
